Our season is OPEN

Our season has officially begun! We have already begun a project on a new construction site in Boone that includes a unique, sloped water feature, fire pit and terraced landscaping.

We look forward to sharing pictures of this project and others throughout the year!

Welcome to the team!

We would like to introduce Erin Disher, our new

Creative Assistant. From time to time, you may see her in the field, but Erin will primarily be responsible for office work and garden design. These days she spends most of her time chasing after her sweet 3 year old (Jonah), gardening, hiking, and cooking.

Jasmine is the consummate interpreter of the environment and artful facilitator of client wants and earth's treasures. Her respect for these elements is expressed in all that she delivers.
